Academic Year 2020/2021 Newsletter

Fall 2020 Highlights

Students and faculty welcomed the new student members and the new Executive Board during the Fall 2020 induction ceremony on Saturday, December 5th, 2020

XE held a panel with the Professional Engineers Society of Mercer County where panelists discussed the job application process and their work experience

Students showed off their creative sides and competed for prizes during the 2020 virtual Halloween Social costume contest.

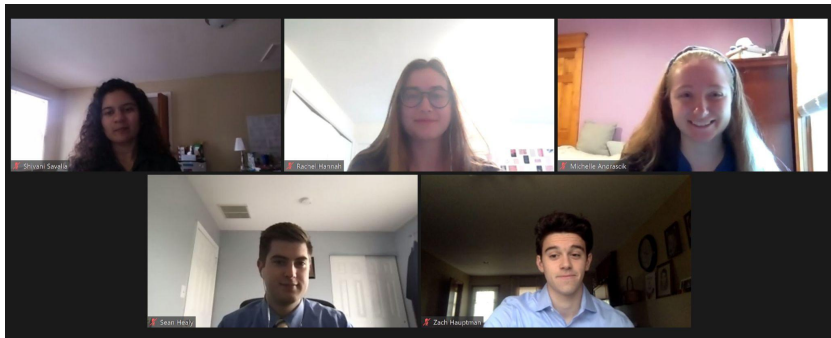

XE members prepared bags of school supplies for 24 first graders at Highland Park Elementary School in Upper Darby, PA

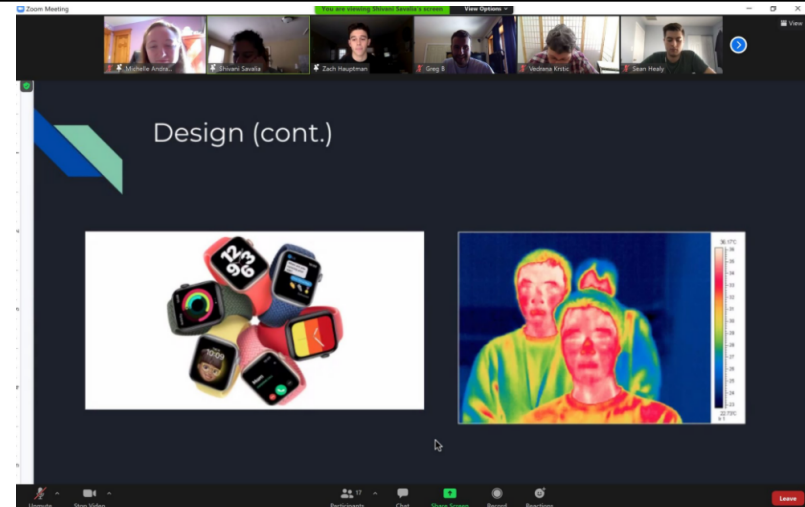

Spring 2021 Highlights

XE sophomores, juniors, and seniors participated in our Annual Spring Service at the Colonial Lake Cleanup event. These members picked up over 10 lbs of trash and recyclables!

Students and faculty welcomed 2021 student members with a virtual induction ceremony on Tuesday, April 9th, 2021

Three teams competed for awards at the 2021 Engineers Week Social by coming up with innovative ideas for combatting COVID transmission on the jobsite!

PROUD TO BE A CIVIL ENGINEER 2021

Students and faculty celebrated "Proud to be a Civil Engineer Day" on April 10th by submitting pictures of themselves in engineering-related outfits.

About Us

Dedicated to the purpose of maintaining and promoting the status of civil engineering as an ideal profession, The College of New Jersey Chi Epsilon was organized to recognize the characteristics of the individual civil engineer deemed to be fundamental to the successful pursuit of an engineering career, and to aid in the development of those characteristics in the civil engineering student.

Engineering, the application of scientific principles to the practical needs of society, is assuming a constantly increasing responsibility for the physical well-being of all people, and thus calling for competence of the highest order. This responsibility can be discharged only by a professional group whose members are possessed of good basic technical ability, intelligence, moral integrity, and effective social poise in their relationship with the larger community of which they are part.

To contribute to the improvement of the profession, TCNJ XE fosters the development and exercise of sound traits of character and technical ability among civil engineers, and its members, by precept and example, toward an even higher standard of professional service.
