

TCNJ XE Chapter Installation, December 8, 2018

Chi Epsilon was founded at the University of Illinois in 1922 as a fraternity to recognize those students in civil engineering who possess the fundamental characteristics of a successful civil engineer and would use those qualities to advance the profession as a whole. By recognizing outstanding students and graduates for their scholarship, character, practicality, and sociability, Chi Epsilon seeks to foster excellence, connectivity, and engagement among those in the civil engineering community to improve our world.

The College of New Jersey's XE Chapter was installed on December 8, 2018 as the 143rd chapter of Chi Epsilon.
