

About Us

Dedicated to the purpose of maintaining and promoting the status of civil engineering as an ideal profession, TCNJ XE was organized to recognize the characteristics of the individual civil engineer deemed to be fundamental to the successful pursuit of an engineering career, and to aid in the development of those characteristics in the civil engineering student.

Engineering, the application of scientific principles to the practical needs of society, is assuming a constantly increasing responsibility for the physical well-being of all people, and thus calling for competence of the highest order. This responsibility can be discharged only by a professional group whose members are possessed of good basic technical ability, intelligence, moral integrity, and effective social poise in their relationship with the larger community of which they are part.

To contribute to the improvement of the profession, TCNJ XE fosters the development and exercise of sound traits of character and technical ability among civil engineers, and its members, by precept and example, toward an even higher standard of professional service.

SPRING SEMESTER NEWSLETTER

Spring 2019 Highlights

XE sophomores, juniors, and seniors participated in our Annual Spring Service at the Colonial Lake Cleanup event. These members picked up over 70 lbs of trash and recyclables!

Students and faculty celebrated "Proud to be a Civil Engineer Day" on April 10th by wearing polos sold by XE and other engineering attire.

Chuck, Steve, Kush, Nick, and Luke all volunteered at TCNJ Student United Way's PB&J Race.

The seniors "towered over" the competition at the Engineers Week Social, while the pledges, juniors, and sophomores did not do quite as well building their marshmallow structures!

Junior members conducted a tutoring session for sophomores enrolled in Strength of Materials.
