

About Us

Dedicated to the purpose of maintaining and promoting the status of civil engineering as an ideal profession, TCNJ XE was organized to recognize the characteristics of the individual civil engineer deemed to be fundamental to the successful pursuit of an engineering career, and to aid in the development of those characteristics in the civil engineering student.

Engineering, the application of scientific principles to the practical needs of society, is assuming a constantly increasing responsibility for the physical well-being of all people, and thus calling for competence of the highest order. This responsibility can be discharged only by a professional group whose members are possessed of good basic technical ability, intelligence, moral integrity, and effective social poise in their relationship with the larger community of which they are part.

To contribute to the improvement of the profession, TCNJ XE fosters the development and exercise of sound traits of character and technical ability among civil engineers, and its members, by precept and example, toward an even higher standard of professional service.

FALL 2019

Fall 2019 Highlights

XE juniors and seniors helped transplant 15 trees and spread seeds at The Watershed Institute in Pennington, NJ at our annual Fall Service Event.

Chuck, Kush, Luke, and Dr. Krstic all got together to take on Howell Farm Corn Maze in late October. All members made it through successfully!

TCNJ XE donated for the third straight year to Kiva, to help fund construction of a water distribution system in Paraguay. The system will supply water to 300 families in the city of Mariano Roque Alonso.

For Halloween, XE Members, Pledges, and Associate Members teamed up with the TCNJ ASCE chapter to make pumpkin pails for underprivileged students at Highland Park Elementary School in Upper Darby, PA.

The kids loved all the goodies!

We would like to thank Professor Tom Carl (far right) and Michael Baker International for their generous donations!
